

SDTM Therapeutic Areas (additional Domains)			
new Domain	Label	Update based on	Comment
AP--	Associated Persons	SDTM-AP IG Version 1.0 of Dec 2013	
BE (Biospecimen Event), BS (Biospecimen), PF (Pharmacogenomics Findings), PG (Pharmacogenomics /Genetics Methods and Supporting Information), PB (PGX Biological State)	Pharmacogenomics	SDTM IG -PGX	never published, draft for review in 2010, but these domains are mentioned in other TA standards (eg Virology, PKD)
(So far) No new Domain, only additional Assumptions to existing domain specs in SDTM-IG. NSMG (NON -SUBJECT MEDICAL HISTORY) is under review within SDS Team	Alzheimer's Disease v1	Version 1.0 of Sep 2011	Final
AG (Procedure Agents), NV (Nervous System Findings), BE (Biospecimen Event), BS (Biospecimen), PF (Pharmacogenomics Findings)	Alzheimer's Disease v2	Version 2.0 of Dec 2013	Provisional!
AG (Procedure Agents), RE (Respiratory System Findings)	Asthma	Version 1.0 of Nov 2013	Provisional! AG, RE mentioned also in SDTM IG 3.3. batch 1 (may, 2014)
MB (Microbiology Specimen), MS (Microbiologic Susceptibility), DU (Device in use)	Tuberculosis	Version of Jun 2012	Provisional!
VR (Viral Resistance Findings), PF (Pharmacogenomics Findings), PB (PGX Biological State), SB (Subject Biological State)	Virology	Version of Dec 2012	Provisional!
no additional domains	Pain	Version of Aug 2012	Provisional!
UR (Urinary System), PF (Pharmacogenomics Findings)	Polycystic Kidney Disease	Version of Feb 2013	Provisional!
no additional domains	Parkinson's Disease	Version of Dec 2012	Provisional!
DI (Device Identifier), DU (Device in use), DX (Device Exposure), DE (Device Events), DT (Device Tracking and Disposition), DR (Device Subject Relationships), DO (Device Properties)	Medical Devices	Version 1.0 of Dec 2012	Provisional!
