

Thank you for your feedback!

Your comments are greatly appreciated

22nd German CDISC User Network Meeting

15th March 2016, Aachen

The most useful **session** of the meeting was....

All sessions
Receiving outsourced SDTMs
Automatization of SDTM CT
SV, SUPPSV
Define.xml 2.0 (NCI codes)
SDTM mapping
Submission Readiness
Handling of Multiple IC Forms in SDTM

because....

Very informative
Interactive exchange
Presenters very good prepared
Different way of solving of the same problems

The most useful **discussion** of the meeting was...

All discussions
Handling of SV
Receiving outsourced SDTMs
Submission Readiness
Problems with QS Code
Feedback from FDA (testsubmission, checks)

because...

up to data and relevant
view of sponsors and CROs

Which topics would you like to propose for **the next meeting in the autumn of 2016**?

- 1) eCTD compliance
- 2) TS mapping
- 3) FDA submission (Details on blocking criterias for FDA submissions)
- 4) Mapping questions
- 5) CDASH 2.0
- 6) IG 3.3
- 7) Experience with SDSP
- 8) Traceability SDTM-ADAM
- 9) CM, ingredients
- 10)ATC
- 11)ADaM topics (experience, status, open CDISC, define.xml 2.0)
- 12)SDTM experience
- 13)Gibt es schon Standards für die Daten, die bei clintrial.gov etc. veröffentlicht werden können/sollen?
- 14)Coding: CMDECOD mapping - preferred term, generic name, drug name?

What could be improved by **the host company for the next meeting**?

Perfect
Very well organised
Nothing to improve
Excellent service throughout the meeting
GRT sets a high quality level for the next facilitator
To continue the social get-together on the previous day

If you were describing to a colleague or friend, the benefits of your experience today, what would these be?

Fruitful discussions
Very good
Helpful
Inspiring
Exchange within the community
To know all companies are struggling with SDTM implementation
Update of new topics
F2F instead of TC
Lots of business related topics
Learning
